“ I'm so sorry for your loss. Mrs. Beaulieu was one of those teachers that you just don't forget. I remember her imploding a bottle accidentally (luckily it was inside the sink) on our Chemistry class and we made calamari in Zoology. I can only hope that I make such great impact on my own students.

“ Bette was a friend, colleague at Nashua High Science department and a wonderful, wonderful person. She had a love for life, people and just a zest for teaching. I do not ever remember her without a smile!!! It was contagious.
I will miss her but I have the memories of us teaching and the great times we all shared.

Love,
Diane Savage

“ My deepest sympathy to the family I've been out here in Arizona for the last 30 years but I remember all the conversations we had and how she expressed the love and concern she had for all of you. May she rest in peace.

“ I am so sad to hear this. Mrs. Hogan's 1976-1977 Biology class made a HUGE impact on the events in my life. It gave me a such a sense of direction in learning what my life's path might be. My family moved to Texas immediately after my high school graduation, but I always wished I would get to see her again to tell her how important she was as a teacher and how much she influenced my future development. May she rest in peace, my sincere condolences to her family and friends.

“ My deepest sympathy to the entire family. I was fortunate enough to have Mrs. Beaulieu for two classes in high school. Without any exaggeration, I can say they were the two most worthwhile and fun classes in my years at Nashua High. I remember her laughter and joking with all the students and making learning fun.

RIP Mrs. Beaulieu

“ My thoughts and prayer to the family. I had her my Junior year and must say that even though Biology was not my strongest subject she made everyday fun. Always had a smile when you walked into the class room and loved to joke as if you were a friend instead of a student.

I thought of her often these last 25 yrs and times in class when she would give us pop quizzes and me not knowing the answer would write something off the wall and she always had 2 grades for me. The actual grade which wasn't that great but then she would usually give me an "A" depending on the BS I could lay down along with a smiley face and a short note saying "nice try". She will be greatly missed, God speed.

“ I had Mrs. Hogan for biology at NHS when it was what is now Elm St. Middle School. She was a fearless teacher and taught me so much, especially that science is as much for females as it is males. Her classes were adventures and I'll never forget 2 moments: when she fed the mouse to the boa in our class and when she talked about conception. She was so serious but I knew she was just holding back a huge laughing fit! Rest in peace, Mrs. Hogan!!
